

We support the State of Indiana telephone privacy law as it now stands. Please consider the consumer and our needs vs. those of a business. Unnecessary calls can be not only inconvenient, but impose on time needed for more important things, such as providing health care, etc. to those within a household. We feel this is an intrusion on our privacy and we don't want or need a bank/credit card service calling to make a sales pitch. The US Postal Service can provide this service for them.

Thank you for your time and consideration.
